Who Am I

Merzouk Benselloua Ahmed Yasser

- Student at ESI-SBA.
- CTF Player with Team7even/CyberErudites.
- Twitter: @Ahmed_2Yasser.
- Discord: Fa2y#9061.

What is Penetration Testing ?

Introduction

“A **penetration test**, colloquially known as a **pen test** or **ethical hacking**, is an authorized simulated cyberattack on a computer system, performed to evaluate the security of the system ”

Why Penetration Test are important?

Why Penetration Tests?

“The goals of a penetration test vary depending on the type of approved activity for any given engagement with the primary goal focused on finding vulnerabilities that could be exploited by a nefarious actor and informing the client of those vulnerabilities along with recommended mitigation strategies. ”
